

3D PRINTER CERTIFICATION

Every job is approved by an instructor first — at every level, on every machine.

LEVEL 1

BEGINNER

Print with an instructor helping you.

LEVEL 2

INTERMEDIATE

Print with an approved peer helping you.

LEVEL 3

ADVANCED

Print on your own.

And the machines go in order

A1 MINI

Where everyone starts

X1C

Bigger, faster, enclosed

H2D

The largest machine in the room

After a level on one machine you may go up a level on that machine, or take the same level on the next machine. You cannot skip a machine. Training is the free Bambu Lab Academy course for that printer — bring your completion to Mr. Frank.
